Please Release Me, Let Me Go (But you are still loved) (reprinted from an earlier edition)

"Get a grip" is not something said in Square Dancing. Gently touching hands while dancing is preferred to a hard grip. While square dancing, merely touching hands as you go through the maneuvers helps with flow as well as prevents injuries. The term Jet uses is "touch hands" with those around you, not "hold hands". If you try to keep your thumb off the hand of others, it will

aid in touching gently. Several members have been seen with arm or wrist braces. These are not due to square dance related incidents, but they are a reminder that some people have fragile joints.

There have been incidents of cuts and scratches received from fingernails and hand jewelry. Please be aware of what you bring to the square and keep fingernails trimmed and hand jewelry to a minimum for maximum square dance enjoyment by all.
